Threats: Out Of Our Control (External)

GBMP builds clarity

GBMP has been a trusted partner in Lean training and consulting for more than 25 years, helping leaders think strategically and align their organizations around a shared vision. By developing leadership capability and providing strategy deployment tools, GBMP gives companies the clarity and direction needed to succeed. In this partnership, GBMP's role is to provide the roadmap—guiding organizations to define purpose, align priorities, and prepare the path for effective execution.

LinkedXL executes strategy

LinkedXL OS Software CBM led by global operations strategist Billy Taylor, transforms strategy into measurable execution. By embedding ownership, accountability, and governance at every level, CBM creates a sustainable system that ensures results are not only achieved but maintained. In this partnership, LinkedXL's role is to provide the vehicle—a proven operating system that drives strategy off the page and into daily practice.
